Programming Experience

- 2.5 Years Software Development
- 1.5 Years React Native
- React Native/React/HTML/CSS
- AWS Amplify DataStore

Software Projects

UberEATS Clone App

[GitHub Repository](#)

- A full stack UberEATS mobile app using React Native and AWS Amplify for the back end + Authentication.

Donut Shop App & Dashboard

[GitHub Repository](#)

- A React Native donut shop app for users to check out new menu items, order donuts to pick up in store, and sign up for donut rewards.
- Developed a React.js dashboard that connects to the donut shop app to fulfill customer's mobile orders and manage donut inventory.
